WELCOME TO THE PARALLEL UNIVERSE!

Topps Premier League 2026 introduces parallels like never seen before. These cards essentially 'run parallel' to the main collection – meaning they have the same design but are distinguished by a different colour scheme or special foil material which changes depending on the rarity.

Unnumbered parallels are inserted 1 in every 2 packs and the rarer numbered parallels start at 1 in every 14 packs.

Numbered parallels are distinguished with a sequential number on the front of the card - the lower the sequential numbering, the rarer the card becomes.
If you pull a 1/1 Foilfractor card, you can be certain that you have the only one of this card type in the world!
