Topps MATCH ATTAX

GAME RULES

STEP 1

SELECT YOUR TEAM

- Pick your team of 11 players with 3 substitutes.
- Each team must have at least 1 goalkeeper.
- For extra gameplay power, lay down your Tactic Combo card.
- Lay all your cards face down in formation.
- Decide who goes first by flipping a coin.

FORMATIONS ALLOWED

4-4-2, 4-3-3, 4-5-1, 5-3-2, 5-2-3, 5-4-1, 3-5-2, 3-4-3

PRO RULES

Why not make the challenge even harder by having a maximum budget of 100 million when selecting your Match Attax team?

STEP 2

ATTACK OR DEFEND?

- Whoever goes first must nominate a card and decide whether they want to use ATTACK or DEFENCE rating categories in a head-to-head battle.
- Neither player can turn their cards over before choosing their preferred category.

STEP 3

HIGHEST SCORE WINS!

- Once both players have selected their cards, it's time to turn over the cards and reveal who won the round.
- If player 1 chooses to "attack" with their card then player 2 must choose to "defend" with their card.
- If player 1 chooses to "defend" with their card then player 2 must choose to "attack" with their card.
- Whichever player has the highest rating wins the round and scores a goal for their team.
- The winning player of each round keeps control of the game and chooses first in the next round.

LOOK OUT FOR SPECIAL NEW CARDS THAT SCORE YOU 2 GOALS IN JUST ONE ROUND!

STEP 4

IF IT'S A DRAW

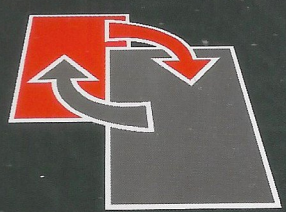

- If both players have the same rating, then combine each player's ATTACK and DEFENCE stats. The player with the biggest combined rating, wins the round.
- If the COMBINED ratings tally also ends in a draw, then neither player scores and a new round begins.
- Whoever chose first in the previous round keeps control and chooses first again in the new round.

STEP 5

MAKE A SUBSTITUTION

- Make a change at any point in the game by choosing a sub to replace a player in your line-up.

- The substitution must be called before both players select their cards in a round.
- You cannot make a substitution in the final round.

STEP 6

USE YOUR TACTIC COMBO CARD FOR EXTRA GAMEPLAY POWER!

- Use your Tactic Combo card to boost your team during any game.
- You can only select two (out of the 4) tactical options per game (AGENT, INJURY, REFEREE or VAR).
- You can only play any one individual tactical option once per game. For example, you cannot use the 'AGENT' tactical option twice in the same game.
- You must clearly nominate your tactical option at the same time you select your player card.
- You must always be specific about which tactical option you are selecting within any individual round.
- Your opponent can also use their Tactic Combo card within the same round.
- Neither player can use the Tactic Combo card in the final round of a game.

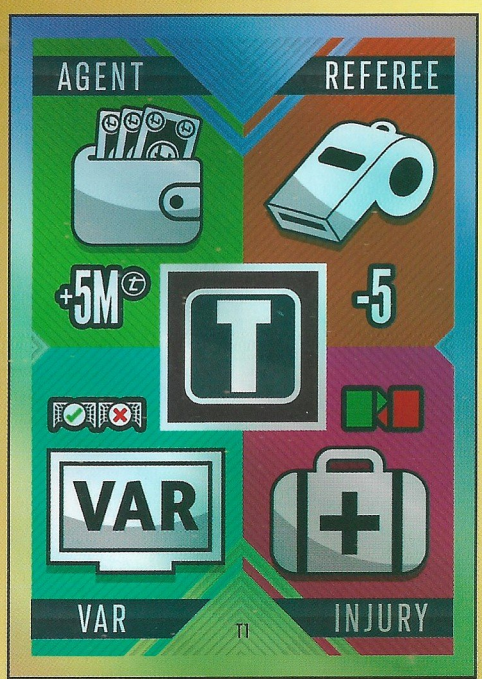

HOW TO USE THE 4 DIFFERENT TACTICAL OPTIONS

AGENT

Add an extra +5 million value to your 100 million team budget.

VAR

You can challenge a goal that your opponent has scored. Use your VAR option and then toss a coin to see if the goal stands or if it is disallowed.

REFEREE

Deduct -5 points from the rating on your opponents card.

INJURY

Force your opponent to remove a player of your choosing. They must replace with 1 of their substitute cards. If they have used all their subs and there is an empty card holder at the end of the game, this automatically counts as a goal for you.

WHO WINS?

- Place your winning & losing cards in piles at the end of each round so you can keep track of the score.
- The winner of the game is the player who has won the most rounds once all cards have been played.
